CAREER OBJECTIVE

As a recent graduate with a Bachelor's degree in Computer Science, I am eager to kick start my career in the field of software development. I am seeking a job as a fresher where I can apply my knowledge, skills and passion for coding to create innovative and efficient solutions.

PROFESSIONAL EXPERIENCE

Parking Management System Web Application   March 2023

- Developed a web-based Parking Management System using Python, Django, HTML, CSS, and MySQL, JavaScript, matplotlib.
- Implemented CRUD functionality for managing daily transactions, including vehicle registration, current vehicle display, and updating parking area availability.
- Extensively utilized Django technologies, including forms, templates, and ORM for communication with database in different forms while using interceptors, validators, actions using Django framework
- Generated statistical reports for parked vehicles within a specified timeframe.

News App Web Application   July 2023

- Developed a news application that utilizes the News API to fetch and display news articles and images.
- Implemented features such as search functionality, article filtering, and a user-friendly interface
- Technologies used include JavaScript, HTML & CSS, Request library, Font Awesome and Django.
